ADDRESS Shicheng Guo Marshfield Research	DATE 11/27/2019	TOTAL \$98,265.45	

DATE	ACTIVITY	DESCRIPTION	QTY	RATE	AMOUNT
11/27/2019	8000	Targeted NextGen bisulfite sequencing panel analysis set up using pre-validated methylation tNGBS panel: include four controls for bisulfite modification, multiplex PCR, and QC. It is not refundable.	1	1,000.00	1,000.00
11/27/2019	8017	DNA bisulfite modification in a 96-well plate: Up to 92 samples at uniformed DNA concentration. EpigenDx will include 3 positive controls and 1 negative control	10	553.09	5,530.90
11/27/2019	8501	Custom Target Gene Sequencing including library construction and sequencing	920	300.00	276,000.00
11/27/2019	8501a	Custom Targeted Gene Sequencing, data analysis.	920	100.00	92,000.00
11/27/2019	Credit	collaboration credit	1	-	-178,000.00
				178,000.00	

This is a collaborative quote with the researcher pays for the reagents and EpigenDx pays for the labor and any other cost incurs.	SUBTOTAL	196,530.90
	DISCOUNT 50%	-98,265.45
	TOTAL	\$98,265.45
	THANK YOU.
